

Kerberos International, Inc.

www.KerberosInc.com

Certified 8(a)

Woman Owned Small Business

Kerberos International delivers innovative communications solutions and trusted security and protective services to federal, state and local governments and commercial entities.

DUNS: 788627466 | CAGE: 5TCB3

Facility Clearance: TOP SECRET

DCAA Audited Accounting System

Contract Vehicles: SEAPORT-e

NAICS Codes:

334220, 332994, 334290, 515111, 517410, 541330, 541511, 541512, 561612

Differentiators

- We are an agile, highly responsive provider focused on customer satisfaction.
- We combine senior engineers offering experience developing military communications solutions with **savvy military and intelligence field operators** to deliver innovative solutions that **work in battle**.
- We deliver outstanding, professional security guard and protective services.
- We specialize in high performance, low-cost, small SWaP-C solutions that leverage the world's most cutting-edge technology.

Core Competencies

Portable C⁴/ISR and Electronic Warfare Solutions Including REAPR™

Customized, man-portable, small SWaP-C Electronic Warfare (EW) solutions. Robust remoteable, multi-function, multiband, full spectrum, HF/VHF/UHF electronic support and reactive electronic attack (EA) systems. Support for radio, satellite, telephone, Internet, video, GPS, RFID and specialized hardware & software. Ruggedized with optional trailers. Capable of operating in the most austere environments using various power sources.

Security and Protective Services

- **Security Guard Services:** Armed and unarmed security guard services protecting facilities ranging from critical infrastructure, power plants and dams to office buildings.
- **Badging, credentialing and fingerprinting services.**
- **Technical Surveillance Counter-Measures (TSCM)**
- **Counter-Terrorism Services** conducted by former federal counter-terrorism operators
- **Executive Protection in Contested Areas** provided by former special forces operators.

Radios in a Box (RIABs)

Ruggedized, portable FM radio broadcast systems used by SOF, Information Operations (IO) and OTG forces worldwide.

Mobile Communications Trailers and Towers

Ruggedized, portable communications solutions for ISR (intelligence, surveillance, reconnaissance), emergency response and other purposes. Includes comfortable workspace (optional) and telescoping masts that house various sensors and communications equipment.

Information Operations and CVE Solutions

Unique and proven Information Operations process to counter violent extremism (CVE). The Kerberos team starts by identifying isolated individuals promoting peace, stability, democracy and human rights in a given area of interest. Then the team vets and trains local marketing professionals to conduct events that **build those individual voices into a strong network of local, positive influencers that are credible to vulnerable youth in the area and dilute the effect of violent extremist propaganda.** Big data analysis and virtualization techniques are used measure the effectiveness of the "positive network building" and graphically depict the results.

Representative Past Performance

USCENTCOM: Kerberos provides engineering design, build, and test of multiple electronic warfare platforms for USCENTCOM. Kerberos also provides a 24x7x365 help desk and monitoring service and, when necessary, deploys combat experienced electronic warfare veterans to install, operate and maintain these platforms in various areas throughout USCENTCOM's area of responsibility.

Department of Energy, Western Area Power Association and Bureau of the Interior—Armed Security Guard Services:

Kerberos provides armed security guard and alarm monitoring services for several DOE locations in Colorado, Arizona and California and for Parker Dam on Lake Havasu.

US Army and Air Force Research Laboratories (ARL & AFRL) STTR Phase II Awards:

Kerberos provides R&D, engineering and design services for the development of a man-portable, tactical, intelligent radio frequency (RF) jamming system that will automatically classify and attack various RF waveforms. The Air Force contract involves futuristic concepts that will evolve in the next decade.

USSTRATCOM / Joint Electronic Warfare Center (JEWEC) OPFOR Branch:

Kerberos provides various customized radio (RF) and satellite communications solutions, ruggedized electronic warfare (EW) trailers and radio system training.

Edwards AFB: Kerberos designed and built a ruggedized, portable communications tower with a 72' telescoping mast containing various surveillance and radio broadcast sensors.

Fort Hood Family Housing: Kerberos designed, implemented and supports an outdoor wireless communication network throughout residential areas of the base spanning 3800 structures and over 400 radios.

Environmental Protection Agency (EPA):

Kerberos provides administrative badging, credentialing and fingerprinting services.
