

Customized Command & Control and Communications Trailers

Kerberos International is your one stop source for customized command and control and communications trailers.

Kerberos International leverages agreements with multiple sources around the world to deliver the most operationally effective and cost effective trailer to meet a diverse set of requirements.

Whether your requirements include a simple, single VSAT satellite terminal, multiple communications antennas mounted on a 100' mast, or a robust Command & Control Trailer, Kerberos will deliver a proven, field-ready and affordable solution.

Kerberos offers a variety of Cell On Wheels (COW) trailers, radio and satellite communications trailers as well as spacious and effective Command and Control Trailers.
