**“Information Operations” in a Box**

**Refugee and IDP Camps are Breeding Grounds for Extremist Recruitment**

**Effective Programming Includes**

- ◆ Music, Sports, News & Weather
- ◆ Local Announcements
- ◆ CVE Education

**Proven Four-Point Education Program**

- ◆ Critical thinking and decision making (consequence reflection)
- ◆ Building empathy
- ◆ Media literacy (broadcast and social) to recognize and deconstruct propaganda
- ◆ Redirect to positive lifestyles and content leveraging affiliation with well-known figures who also faced struggles in their youth

**Local and/or Remote Control**

- ◆ We train local DJs to operate the Broadcast Studios and Internet Café’s, delivering authentic, genuine voices for the area
- ◆ Single or multiple Broadcast Studio’s can also be controlled remotely and preprogrammed playlists are easy to create. Remote Operators can take over from anywhere in the World in order to allow “down” time for Local DJ’s.

Kerberos’ Radio in a Box (RIAB), Portable Television Studios, and Cellular/Internet Café Solutions, utilized singularly or in conjunction with each other, combine highly effective, inexpensive, proven **state of the art technology with proven programs to counter violent extremism (CVE)**. A typical portable RIAB station will significantly strengthen the listeners’ “resistant quotient” to extremist propaganda.

**Lightweight Rugged Technology**

- ◆ RIABs, TV Stations, and Internet Café’s can be set up easily by one trained operator and one assistant.
- ◆ Hardened, man portable, lightweight
- ◆ Rapid deployed.
- ◆ Highly effective and inexpensive.
