Full Spectrum Security Services Unwavering Commitment - 24/7/365

Kerberos is a professionally managed provider of superior security solutions designed to mitigate risk and to protect life, property, material and sensitive information.

Kerberos' management experience includes decades of service as federal agents providing security and protection in some of the most difficult situations in the world.

Today Kerberos protects segments of our nation's critical infrastructure including power plants and dams as well as federal facilities, widespread campuses and office buildings. Kerberos also provides fingerprinting, badging and credentialing services for key federal agencies.

Core Services Focus on Quality:

Kerberos International is uniquely positioned to ensure the highest level of protection, security and peace of mind by leveraging its organizational strengths that include a responsive management structure, beneficial teaming agreements and technology that automates scheduling and rapid response communications.

Kerberos International's core services include:

- ◆ **Physical Security: Armed and Unarmed Security Officers** including Standing Posts, Gate/Access Security, Roving Patrols
- ◆ **Facility Security:** Access Control, Marked and Unmarked Vehicles, Security Surveillance, Alarm Monitor
- ◆ **Badging and Credentialing Services** including fingerprinting, badging and operation of credentialing applications

Special Services:

Kerberos International is also able to leverage the company's extensive executive protection and technological experience to deliver additional services:

- ◆ **Executive/Dignitary Protection** (conducted by former special forces and federal security professionals and available in contested, remote areas)
- ◆ **Risk Assessment**
- ◆ **Mobile Command Units**
